Long-Jian River, Many
Thought Dead[EXCLUSIVE DISPATCH]
SAN FRANCISCO, Aug. 12.—The Coast Guard cutter Bear, veteran of the Alaska run, is ashore at Cape Prince of Wales on Bering Strait, according to word received here yesterday. Radio at Coast Guard headquarters.

The cutter Algonquin, which left Unalaska Tuesday night, was directed to proceed to the scene to relieve the stranded Bear. The vessel is in no immediate danger, according to word received here. The Algonquin is expected to reach the Bear on Thursday night or early Friday.

The Bear was returning from her annual trip to Point Barrow with supplies for the United States Bureau of Education. She has been commanded by Capt. L. C. Covell, of Los Angeles.

The Bear was not able to make Point Barrow last year because of the breakdown of its engine. Point Barrow is the northernmost settlement in the world. It receives one or two visits each summer from schooners, and small sleds every month in the winter.

Modern Hotel
to be Built in
Yosemite Park[BY A. P. NIGHT WIRE]
WASHINGTON, Aug. 12.—Erection of a modern hotel on the floor of the valley in Yosemite Park is to be the work of the old Sentinel Hotel, which has been authorized by the Interior Department.

The first unit is expected to be built this fall at a cost of \$100,000. When it is completed accommodations will include hotel, bungalow, tent camp and free public camp grounds.

Plans are made for the construction of roads under a maximum of per cent grade, and wide enough to warrant safety. Engineers of the Bureau of Public Roads have been ordered to relocate the main mountain road.

COMMUNISTS KILLED
IN CZECHOSLOVAKIA

WARSAW, (Poland), Aug. 12.—A series of Communist assassinations in the peninsula at Lach-Volynia, one prisoner was killed and several wounded when prison guards fired into a group of 100. The Communists were arrested in connection with an alleged attempt to establish a soviet in East Poland last spring.

GERMANY FRONTIER CLOSED
IN CZECHOSLOVAKIA

BELGRADE (Yugo-Slavia) Aug. 12.—The Jugoslav government has ordered the Greek frontier closed because of outbreaks of an outbreak of plague in Piraeus.

THE DAY'S NEWS SUMMED UP

"Symphonic" law tonight by Comptroller Gardner plays bad new "Oanabreko." Page 2, Part II.

Conclusion of the Pickford kidnapping trial nears as defense attorneys make final appeals and jury gets case today. Page 16.

Board of Public Works awards contracts for city improvements in various districts at total cost of \$1,200,000. Page 12.

DIRECTORS
HIT AGAINGrand Jury Acts
in ImperialMark Rose and Three Other
Irrigation Men Accused
of Funds MisuseNew Action Paves Way for
Trial, Barred by Error
in 1924 Findings[EXCLUSIVE DISPATCH]
EL CENTRO, Aug. 12.—Four of the five members of the board of directors of the Imperial Irrigation District are named in accusations presented by the Imperial County grand jury to Dist. Atty. Ulysses this morning. Mark Rose, Frank Alten, Earl Pound and C. W. Brockman are the officials mentioned in the finding of the jury and all face a court trial to determine whether they shall be removed from office.

The grand jury asserts that approximately \$50,000 of the funds of the district have been spent unlawfully, and for purposes of spreading propaganda favorable to the Swing-Johnson bill, now known as the Smith Bill, which provides for a rider attached which favors the so-called "all-American" canal. The grand jury has been in session for more than a year and is a result of the finding of the grand jury of 1924. That body accused the directors of practically the same thing, but the findings were not mentioned in the findings returned to date, which are more specific and detailed.

The necessity for working rapidly was explained, here as due to the rapid approach of bad weather. The planes are to do their exploring. Little more than two weeks of fairly good weather remain for this purpose before winter begins to tighten its frigid grip on the Arctic.

MacMILLAN
PLANES FIND
NORTH BASELikely Location Spotted
as Flyers Rush to Beat
Approaching Winter[BY A. P. NIGHT WIRE]
WASHINGON, Aug. 12.—Coming in a few hours territory which explorers a few years ago might have labored over for months the airmen of the Macmillan Arctic expedition have spotted a likely location for an intermediate base between Etah, Greenland and Cape Thomas Hubbard.

Two trips over the icy mountains of Ellsworth Island in weather that chilled to the bone, were necessary to find the landing place. The first of these trips, last Saturday, carried the planes over rugged country never before traversed by civilians man.

The second journey yesterday, although made difficult by low-lying clouds, was successful in finding a landing place. The second, 100 miles from Etah, what appeared to be a suitable location.

The necessity for working rapidly was explained, here as due to the rapid approach of bad weather. The planes are to do their exploring. Little more than two weeks of fairly good weather remain for this purpose before winter begins to tighten its frigid grip on the Arctic.

The program is an ambitious one to find the solution of many deep-sea mysteries regarding which scientists have thus far caught only an inkling. A study of ancient civilizations which are thought to have been beneath the surface of the Mediterranean is the first objective.

After twenty years of research, Dr. Hans Hartman performed a deep-diving apparatus, through which ocean depths of 10,000 to 15,000 feet can be explored and studied.

The American inventor, who is a member of the Royal Society of Arts and Sciences, is a man of independent means, and comes from mining, engineering and electrotherapy. His experiments in oceanography have been conducted from the New York submarine and in conjunction with the Prince of Monaco's work at Monte Carlo and Northern Africa. The first tests of his diving cylinder were made in 1912, while his deep-sea photographic apparatus was developed in tests made from an American warship, in competition with the American

Body of Saint
Brought Into
United States[EXCLUSIVE DISPATCH]
NEW YORK, Aug. 12.—The White Star liner Homeric arrived tonight with the body of St. Christopher the virgin.

By permission of the Pope the body was taken from its resting place in the Catacombs of Rome and will be placed in the cathedral at Cleveland.

The body is in charge of Bishop Joseph Schreiber of that city, who is accompanied by Rev. Dr. J. J. Dallagh of Detroit and a party of Catholic clergymen returning from Rome.

(Continued on Page 2, Column 2)

DUE TO COURT RULING

At the time of the filing of the report of the grand jury, Justice Burnell of Los Angeles, sitting here for Judge Conklin, sustained the demurral of Phil Swing, attorney of the accused, directing the grand jury to make specific more specific. The action today is said to meet the requirements of the court's ruling. According to Dist. Atty. Ulysses, the contention of the prosecution that irrigation district directors exceeded their authority in expending public funds when they sent

TO FLY EAST—TO FLY WEST

MARINES WILL HOP
TO ATLANTIC, RETURN[BY A. P. NIGHT WIRE]
SAN DIEGO, Aug. 12.—Sixty-eight coast airplanes and twenty-six submarines, destroyers, min-sweepers, aircraft, tenders and Capt. Russell Presley and Harold Campbell of Marine Corps Observation Squadron One, starting from San Diego to Pearl Harbor the 28th and 29th inst. It was revealed yesterday that the planes will be accompanied by a number of naval destroyers and additional ships to the patrol fleet.

From San Francisco to the Island of Maui, the line of flight will be guarded by the destroyers Capt. William Jones, McCawley, Meyer, Dow, Ross, Parker, Pug, the mine sweeper Tanager and the aircraft carrier Langley and tender Aroostook.

From Maui to the mainland, the route will be followed by the destroyers Peacock, the mine sweeper Tanager and the aircraft carrier Langley and tender Aroostook.

From the mainland to the end of the flight, the tender Peacock will be situated fifty miles southeast of Hilo and the tender Seagull fifty miles north of Kilauea Point on the Island of Maui.

Twelve submarines, now based at Pearl Harbor, will be placed at thirty-mile intervals in a scouting line from the area patrolled by the Peacock, the mine sweeper Peacock, the mine sweeper Tanager and the aircraft carrier Langley and tender Aroostook.

Six of the F-5-L seaplanes tailed by the tug Sunbeam, will be based at Lahaina ready to go to Pearl Harbor following the 240-mile hop, or to fly to the rescue of any plane that may be forced down between the line of naval ships through mechanical or other trouble.

The tug Navajo will cover the channel between the leper Island of Molokai and Oahu.

Nine barges have been shipped from the Bureau of Aeronautics for use on the Hawaiian planes, according to telegraphic messages received yesterday from the National Aeronautic Association at Washington.

Capt. Stanford Moses, commander of the aircraft squadrons, has organized the Second Aviation Squadron, a composite group including bombers, observation aircraft and pilots capable of handling these various types of ships.

The personnel of this composite group will include twenty-five officers and 200 men and it is the intention to have our own flying headquarters at the marine base at San Diego.

About September 1, the three Marine Corps airmen will take off from Langley Field, Virginia, in two Martin bombers for San Diego, coming by way of the Southern

They are planning to double the present strength of the Marine Corps aviation forces based at San Diego, said Maj. H. C. Bowell. "Upon return from the East, the three Martin bombers will be present. The corps forces here will be reorganized into the Second Aviation Squadron, a composite group including bombers, observation aircraft and pilots capable of handling these various types of ships.

The personnel of this composite group will include twenty-five officers and 200 men and it is the intention to have our own flying headquarters at the marine base at San Diego.

The figures on registrations include renewals and new applications and apply to passenger automobiles, trucks, motorcycles and trailers.

California is now the second state in the Union, in population, to have a motor vehicle registration. March 1.

The number of drivers in the State is 70,000. However, the number of drivers in the State is the highest in the world. In this State there is a machine for every 2.9 persons."

VANDALS RAID LOOP SHOPS

Gangs Use Acid and Bombs to Destroy Stocks in
Chicago Union Labor Strike[BY J. P. GALLAGHER]
[EXCLUSIVE DISPATCH]

CHICAGO, Aug. 12.—After a twelve-hour reign of terror among tailors shops here today, during which stocks of cloth and clothing valued at upward of \$15,000 were ruined by union labor acid-throwing and bombing gangs, police late today raided the headquarters of the Amalgamated Clothing Workers Union at 409 South Halsted street and arrested sixty-two members of the union, eight of whom were business agents of the clothing workers' organization.

Large supplies of revolvers, iron bombs wrapped in brass knuckles and blackjacks were found in the headquarters. Those seized were taken to the bureau of identification for a check-up with other cities.

The raid was ordered after nearly

dozen tailoring shops in the

heart of the Loop, the West Side and distant suburbs, either were

bombed or had the greater part of

their stocks of clothing ruined by

armed terrorists, who threw pow-

der bombs and acid bombs.

Expedition to Study Bed of Mediterranean

Special Apparatus Being Prepared for Party

Scientists to Study Ancient Civilization Traces

(Continued from First Page)

value of deep-sea exploration remains to be seen, but it is safe to predict that future generations will be largely dependent upon the sea for their existence.

Seventeens of the earth's surface lies under the liquid veil of the ocean. Four-tenths of all the earth is covered by water at 12,000 to 15,000 feet deep, and at least twenty places this depth ramble 20,000 feet.

All this enormous area remains unexplored and practically unknown. It is the last frontier of the diver's physical endurance.

TURNING TO SEA

It is not strange that man should be turning back for sustenance to the sea, because according to science, he has not to go far back in many ages ago in the form of an amphibian. The earth is approaching the limit of its food and man's physical endurance. In the not-too-distant future man may turn toward the sea to help out the land in his physical endurance.

Knowledge of the sea and its treasures is closely bound up with the future of the human race. The area of the earth is about 70,000,000 square miles of which only 10,000,000 are land. The unexploited area of the ocean must be enormous, but great ingenuity needs to be applied before they can be made accessible.

The animal and plant resources of the ocean probably exceed those of the land. Geologists assure us that the mineral wealth of the ocean is far greater than that of the land area. Oil-bearing strata are known to exist in many places beneath the ocean bed. The time will come when the seafarers will be regarded as of more vital importance than the land area.

"Early in September I shall begin the exploration of the sea of the Mediterranean, which is al-

JOKE WHILE FOOT AMPUTATED

(EXCLUSIVE DISPATCH)

NEW YORK, Aug. 12.—While a surgeon amputated his left foot, which had been caught between two subway cars, Patrick Mongeon, a guard on a Hudson and Manhattan tube train, today calmly smoked a cigarette, smiled and joked with the crowd that jammed the platform. No anesthetic was used. Amputation was the only way he could be extricated. Mongeon was standing between two cars preparatory to opening the doors when they stopped with a sudden jerk. He lost his footing and slipped down between the two heavy bumpers and his foot was caught in such a position it would have been impossible to start the train without tearing off his foot.

Today's most venerable area. We are still so far from depths of 1900 to 2000 fathoms that for our earliest experiments. The diving apparatus will accommodate two persons and will be lowered by a vessel from which we hope to be able to constrain man's first conquest of the tremendous pressures of ocean depth. It will make possible the actual observation and photographing of submarine life.

BEGIN NEXT MONTH

The perfect diving apparatus will be built completed and assembled at the Krupp Munitions Works in Essen, Germany. It is constructed of a special steel alloy, similar to that used in the long-distance guns of the World War. The Krupp engineers have guaranteed it to withstand a pressure of 15,000 feet, and the heavy equipment it will carry is capable of descending two and a half miles in length.

Dr. Hartman's assistants will meet him at Genoa on September 1. The first dive will be made in the Bay of Naples, off Pozzuoli, where massive ruins of a city, known to geographers as the "submerged Pompeii." It is a relatively shallow water. This subaqueous city is probably the old Paestopolis, one of the earliest Greek colonies on Italian soil. Many months later, Dr. Hartman will sail for the coast of North Africa, where investigations will be carried out near Carthage, seat of Phoenician and earlier civilization. The work of the submersible will be enormous, but great ingenuity needs to be applied before they can be made accessible.

The animal and plant resources of the ocean probably exceed those of the land. Geologists assure us that the mineral wealth of the ocean is far greater than that of the land area. Oil-bearing strata are known to exist in many places beneath the ocean bed. The time will come when the seafarers will be regarded as of more vital importance than the land area.

"Early in September I shall begin the exploration of the sea of the Mediterranean, which is al-

most the ocean's most modern area. We are still so far from depths of 1900 to 2000 fathoms that for our earliest experiments. The diving apparatus will accommodate two persons and will be lowered by a vessel from which we hope to be able to constrain man's first conquest of the tremendous pressures of ocean depth. It will make possible the actual observation and photographing of submarine life.

DRESS CHARGE CITED

On one occasion when attending an American Legion convention at San Francisco, Dr. Hartman was accompanied by Mrs. Greer and a nice. The younger woman was seated on a float in the parade and the irrigation district was charged with the responsibility of the irrigation.

Warden A. M. Dalrymple was in his office when he received a call from the police.

"The police are here to see you," said the officer.

"What do they want?" asked Dr. Hartman.

"They want to know if you are a member of the Legion," said the officer.

"I am not a member of the Legion," said Dr. Hartman.

"They want to know if you are a member of the Legion," said the officer.

"I am not a member of the Legion," said Dr. Hartman.

"They want to know if you are a member of the Legion," said the officer.

COTTONSEED BAN IS LIFTED

Mexican Districts Freed from Embargo

Department of Agriculture Makes Rulings

Importation Allowed Under Restrictions

(EXCLUSIVE DISPATCH) WASHINGTON, Aug. 12.—The rules and regulations governing the importation of cottonseed cake, cottonseed meal and other cottonseed products from the United States have been amended, effective the 7th inst., so as to provide for entrance at Mexican border points of these products in the Alvarado and the Alvarado District in the State of Sonora or such other districts as may be approved by the Secretary of Agriculture. The changes in the regulations are changes in Amendment One.

Previous to the 7th inst., the entry of Mexican cottonseed products was limited to those from the Laramie River, but was to be specified in the Department of Agriculture brought out no indications of infection by pink boll-worm in the Alvarado district. From this, no cottonseed products can be brought in without risk to the cotton-growing industry of this country.

In permitting the entrance of Mexican cottonseed products, precautions will be taken to prevent the entrance of products from other regions. Invoices must be accompanied by certificates issued by the Mexican government stating that the products during their process of manufacture were safeguarded from contamination with raw cottonseed not forming a part of the manufacturer's product.

The collector of customs must also receive a written notice from an inspector of the Department of Agriculture that the product imported from entry so far as this department's jurisdiction is concerned.

TEMBLOR IS FELT IN MONTANA

Bozeman Residents Flee Homes When Earthquake Hits Gallatin Valley

(BY A. P. NIGHT WIRE) BOZEMAN (Mont.) Aug. 12.—A slight earthquake shock was felt in Bozeman at 7:58 o'clock tonight.

All sections of the city felt the disturbance and dishes rattled in the cupboards. Electric lights swung on their hangings and there were other visible signs of the tremor. People rushed from their homes to the street and the more nervous and timid were afraid to return.

Other parts of the Gallatin Valley experienced slight earth movements about the same time, and at 7:51 o'clock a second shock was felt in Manhattan, Logan and Three Forks. In the latter town, plaster was knocked from the walls of some of the buildings and there was a general vibration of the ground. Manhattan, Logan and Three Forks are the towns which were in the path of the earthquake of June 27, last.

(BY A. P. NIGHT WIRE) GREAT FALLS (Mont.) Aug. 12.—A slight earthquake shock was felt here tonight at 7:58 o'clock. The tremor did no damage and was not noticed by many persons in the city.

(BY A. P. NIGHT WIRE) LIVINGSTON (Mont.) Aug. 12.—Livingston experienced a slight earthquake at about 7:50 o'clock this evening. Shields River Valley towns also report the shock.

SIBERIAN CONTRACT RATIFIED

Anglo-American Syndicate Gets Rich Gold Concession Negotiated by Angeleno

(BY CABLE AND ASSOCIATED PRESS) MOSCOW (Russia) Aug. 12.—The Lena Goldfields concession, provisionally granted an Anglo-American syndicate by the Russian soviet concessions committee in May, was ratified today by the Council of Commissars.

The Lena Goldfields concession is the largest concession yet made by the soviet. It takes the form of a five-year contract with the British Lena Goldfields Corporation for the exploitation of the Lena Goldfields of Siberia, which are estimated to contain more than \$100,000,000 worth of gold.

The concession will be granted to the extent of 50 per cent of the investment.

The concession was negotiated by Walter L. Lippmann, former director of the American Relief Administration, Alexander Malozemoff of Oakland, formerly chief engineer of the London, Midland and Scottish Finsbury W. Gwynne of London.

The mines, which now are operated by the soviet government, will be taken over immediately by the Anglo-American syndicate.

ABOLISH SPECIAL POLICE

PHILADELPHIA, Aug. 12.—One of the most imposing campaigns ever undertaken to obtain clemency for a Federal prisoner was launched here today in behalf of Warren G. McCray, former Governor of Indiana.

Coincident with the presentation to Atty. Gen. Sargent of a formal application for parole, the Defense of Justice was given more than 200 letters supporting the request and bearing the signatures of fourteen governors and the attorney who found McCray guilty, thirty of the bankers who were involved in the financial operations which resulted in his conviction, and several Senators.

Representatives of business, ministers of the gospel and others.

BLAST INJURES SEAMEN

(BY A. P. NIGHT WIRE) NORFOLK, Va., Aug. 12.—Two officers and two seamen of the battleship Texas were blown overboard and another officer and a seaman were burned severely yesterday in a gasoline explosion aboard a launch from the ship in Norfolk Harbor.

Outcome Probably Will be Made Known Today

Belgium and United States Present Proposals

Middle Ground Being Sought Acceptable to Both

(EXCLUSIVE DISPATCH) WASHINGTON, Aug. 12.—The fate of the Belgian-American debt-funding negotiations probably will be made known tomorrow, it was indicated after two lengthy joint sessions of the Belgian and the American commissions had been held today. Although no official announcement was made in regard to the progress of the discussions, it was believed that the matter had proceeded to a point where it will be possible to reach another agreement as soon as possible.

TERMS SUBMITTED

Both sides have presented their proposals, the Belgians having submitted yesterday the terms on which they thought an agreement should be based, and the members of the American Debt Funding Commission having come back to day with a counter-proposal. No details in regard to either proposal were made public, and it is believed that the Belgians have the extreme position of the governments, the most which they would ask and demand. Following this, the American commission was understood to have followed largely toward agreement on certain points in each proposition and some middle ground which would be acceptable to both governments.

It was indicated that a very serious effort is being made to reach a final settlement of the situation. Following sessions yesterday lasting more than four hours, the commissioners were to meet again today for almost an equal length of time. The morning session lasted two and a half hours, and the afternoon meeting nearly two hours.

On adjournment this evening they agreed to meet at 11 o'clock tomorrow morning. Preceding the joint session, the members of the American commission will meet an hour earlier to go over the situation.

RELIANS PLEASED

The afternoon session is understood to have been devoted to a discussion of arguments for or against the two plans. On coming from the afternoon session the Belgian commissioners were pleased although they did not make any statement as to what had transpired behind the closed doors of Secretary Mellon's office. In some cases it was reported that the Belgians had gained an important point in regard to one of the features of their plan, namely, the request for a moratorium before full payments should begin.

ITALY HOPES VARIABLE SUM WILL BE ACCEPTABLE

(BY CABLE AND ASSOCIATED PRESS) ROME, Aug. 12.—Italy hopes that the terms of her war debt to the United States will make a variable sum, somewhat similar to German reparations under the Dawes plan, according to statements in the press that apparently reflect the views of the government.

Giacomo De Martino, the Italian Ambassador at Washington, now on his way to Rome, will return to Washington this evening to resume negotiations with the American Debt Funding Commission after the French commission, which is still to be appointed, has been named.

Ambassador De Martino will be accompanied to the United States by a staff of experts and will be joined by the others that Italy is ready to pay to the limit of her capacity, but that her capacity should be judged solely and with full appreciation of Italian economic and financial possibilities. These should be judged both in the present and in the future and should be considered in the light of possible participation of the American capital in Italian private and public industrial enterprises.

During his stay in Italy, De Martino will go over the whole question with Premier Mussolini and with the leaders of Italian finance.

HERBERT SPENCER DISAPPEARED
Persons in the Order of the Chancery Division of the High Court of Justice dated the sixth day of July, 1925, and made in an Action for the recovery of the sum of £1,000 of Will and two Codicils of Herbert Spencer deceased dated July 3, 1921, and formerly of 44 Avenue Road, Regents Park, London, N. W. 1, who died on the 20th of June, 1925, Durnian No. 1494, whereby the following inquiry was directed:

"Who, upon the death of the above named Testator, had the right to make any necessary arrangements for his estate to which he was entitled and if so, who had died intestate and if so, what were his personal property and what were his debts and whether any such persons are still alive and if so, who are they and their personal representatives."

NOTICE is hereby given that all persons interested in the estate, under the will and inquiry, are to appear before the 15th day of October, 1925, to answer to the Sheriff of the County of Middlesex, at the Royal Courts of Justice, Strand, London, England, or, members of the Royal Society of Arts, Bolt & Company, their full Christian and surname, addressed and despatched to the Postmaster, 100 Newgate Street, or to Agents there, they will be excluded from the benefit of the said Order unless the consent of the Judge is applied for otherwise orders."

Claimants are to attend personally or by their solicitors, and to state the name and address of a person in England or Wales to whom notices of the proceedings are to be sent.

DATED this 15th day of July, 1925.

HERBERT W. JELLY, Master
NOTICE is hereby given that the Royal Society of Arts, Bolt & Company, inquested for the descendants of John Spencer and Uncle of the above named Testator.

The said John Spencer and his family are to have and to hold in America many years to come first to Illinois and afterwards to California.

John W. & Co., 1 Queen Street, Chipping Norton, England, Plaintiff's Solicitors.

WALES SWEATS TO GROW THIN

Seeks Engine-Room of Ship for Siestas

MERCURY SHOWS 120 DEGREES OF TEMPERATURE

BRITISH HEIR VISITS ISLAND OF ST HELENA

BY G. WARD PRICE
(BY CABLE—EXCLUSIVE DISPATCH)
[Copyright, 1925, by the New York Times
and American Newspaper Alliance]

ST. HELENA, Aug. 12.—The Prince of Wales, worried over his increasing tendency to put on weight, has been spending most of his time at sea en route from South Africa to South America in a program of "reducing." Not content with merely dieting he follows a rigorous program designed to ward off the damon embouchon point of view.

Every day since leaving Simon's Town, South Africa, he has gone down morning and afternoon for long strolls in the engine-room of the ship, "Hawthorn." Here where the temperature averages 120 deg. Fahrenheit, he has occupied a deck chair with a book in hand and a thermometer in the other hand.

No information is forthcoming as to how successful the treatment is.

ACCIDENT TO WARMUP

An accident to the propeller of the "Hawthorn" caused a slight delay in the Prince's visit to St. Helena, the Gibraltar of the southern hemisphere. Divers who made an examination reported that the damage could not be repaired until the ship returns to England in October.

Martial honors were provided for the royal visitor on arrival at St. Helena, where he was given a more than a dot in the South Atlantic and has a total population of less than 4000 persons.

The royal visitor was received by the chief magistrate, Mr. John G. Hayes, consisting of four men, whom he reviewed with the same serious punctiliousness with which he reviews his garrison of as many thousands.

Throughout his stay, he was attended by the entire police force of the island, consisting of five

After the usual ceremonies at the government offices, the Prince visited Longwood House, where Napoleon died, and then spent the afternoon in the company of a choice of steep hills for a game of golf on a course that lies among grander scenery than perhaps any other links in the world.

ISLAND VOLCANIC CRATER

The island of St. Helena has diminished in importance since the days of Napoleon's place of exile.

The opening of the Suez Canal terminated its importance as a stepping-stone for all the commerce and travel on the road to Asia, and it is now visited by perhaps fifty or sixty ships a year, where once it numbered its yearly commerce in numbers. It is still an important telegraph station and its natural position and formation make it a second Gibraltar or Heligoland to those who speak in terms of imperial defense.

BOLTS CAUSED FOREST FIRES

Government Service Reports for Half Year

Total of 600 Blazes Laid to Lightning

Dry Electric Storms Have Been Unusually Bad

(EXCLUSIVE DISPATCH)

PORTLAND (Or.) Aug. 13.—Eight hundred and fifty-four forest fires have been fought by the United States Forest Service in the national forest regions of Oregon and Washington up to July 31, this year. Of these 593 were held under control, and 301 were large fires of ten acres or over. Lightning was responsible for 466 of the fires, while 254 were man-caused. The figures have just been issued by the district forester at Portland.

The report covers only fires handled by the Forest Service in addition to the national forests.

Of the man-caused fires, 191, or approximately 46 per cent, were due to campers. Smokers come next, charged with sixty-nine fires, or 27 per cent. Lumbermen are third, having caused twenty-four fires. Lumbering fires, however, stand first in point of damage and area burned, over, according to the Forest Service's compilation. Two of the worst fires in the national forests of the district this year are fires occurring in lumbering operations. The first, starting on the Columbia National Forest, with a burned area of approximately 4900 acres, started on the

Wind River, a mile area, a going operation. While the cause of this fire was not definitely established it started on an area closed to the public and open only to the timber-cutting operations and their employees, it is said.

Another damaging fire on Snow Creek, Olympic National Forest, with a burned area of 1000 acres, started during a timber-cutting operation, due to defective equipment, according to reports. Other man-causes listed are railroads, twenty-four; lumbering, sixteen; incendiary, two fires, and miscellaneous, nineteen fires.

The report shows that to date there have been forty-seven forest-fire laws and there are a number of other cases being prepared for prosecution.

There were 564 fires burned a total of 15,159 acres. Of this area, 5200 acres were national forest land; 816 acres were privately owned land and inside the national forest boundaries, 2979 acres were privately owned land outside and adjacent to national forest boundaries.

Forest officers state that dry electric storms have been responsible for 466 fires, an increased number of lightning fires. At the same time there appears to be an increased fire-consciousness on the part of the forest ranger with a corresponding smaller number of man-caused fires, as compared to former seasons.

One man has been reported to the district offices in connection with fires handled by the Forest Service this year. This was the death of Ray Dodril, a fire-fighter, who was killed by a lightning bolt.

The report covers only fires handled by the Forest Service in addition to the national forests.

Of the man-caused fires, 191, or approximately 46 per cent, were due to campers. Smokers come next, charged with sixty-nine fires, or 27 per cent. Lumbermen are third, having caused twenty-four fires. Lumbering fires, however,

STEPS UPON SLUMBERING BEAR; LIVES

Ranch Worker Seriously Injured as Bruin Resents Rude Awakening

DEL NORTE (Colo.) Aug. 12.—Manuel Gallegos, an employee on the ranch of Senator John McFadden near Del Norte, was seriously injured in an encounter with a grizzly bear in a strip of forest on the property.

Gallegos, who is an Indian, was striding through the woods looking for strayed sheep and in stepping over a log landed with both feet on the sleeping bear. The fact that Gallegos wore moccasins is believed to account for the fact that the animal did not hear him approach.

The bear, rudely awakened, attacked the man, slashing his face, breaking a cheek bone and seriously wounding him.

The man's wrist was broken by the bear's jaws when he thrust his hand down the animal's throat in an effort to ward off the attack. The dog with the master prevented his death, it is believed, when it joined in the fight and distracted the bear's attention.

When Gallegos reached the sheep camp his wounds were dressed and it is believed he will recover.

At the end of the fight the bear deserted hastily for the upper mountain ranges.

Heavy rains in parts of Colorado recently did damage to transportation and caused loss to the coffee crop.

(EXCLUSIVE DISPATCH)

TUCSON (Ariz.) Aug. 13.—C. M. Zander, superintendent of equipment of the State Highway Department, was among a number lately cited by a deputy sheriff

for speeding on the Oracle road.

BY A. P. NIGHT WIRE
PHILADELPHIA, Aug. 12.—Philadelphia Athletics won their third straight game from the St. Louis Browns here today by a score of 5 to 2. Though outshone, the Athletics gave Jack Quinn brilliant support at critical moments and by spectacular fielding held the Browns in check from start to finish. The Browns scored all their hits but one. Jack Quinn scored two runs with a single in the sixth after Cochrane was apparently passed to the bases.

DE PAOLO OFF FOR ITALY

Bashful Pete, With 1925 National Speedway Title Cinched, to Race in Italian Grand Prix

Bashful Peter De Paolo, who has the speedway championship of 1925 cinched, is on the high seas bound for the motherland, Italy, where he will race in the famous Grand Prix at Monza, September 7, leaving third, and lost his place in the championship standings when he returned to the United States. After a battle his points were restored.

One of the surprises of De Paolo's trip is that he will not drive the Duesenberg with which he has captured the majority of the high-speed racing titles. Instead he will pilot an Italian made car, an Alpha Romeo by name.

This is said to be due to the fact that he does not care to risk the Duesy on the half-race and half-speed courses of Monza.

The Duesy is built for the board bowls, the Alpha for road racing.

Tommy Milton and Pete Kreis, already on their way to Europe, will drive their Duesies at Monza, it is said.

Tommy Milton, snapped the Yankees five-game losing streak by blanking the White Sox today, 2 to 0, losing the title to the Red Sox, 6 to 5, yesterday.

Tommy Milton, 30, of New York, was able to record his third birthday but he failed to do anything to celebrate it.

SAYS HIGH TIRE
PRICES TO STAYPepperdine Sees No Chance
to Break British ActAuto Supply Business Shows
Satisfactory TrendHeavy Sale of Equipment for
Camping Reported

That the British restriction plan will remain effective and tire prices will continue high for at least three or four years was the assertion made yesterday by George Pepperdine, president and general manager of the Western Auto Supply Company.

"There is no chance for abolition of the Stevenson Act, and on account of the shortage of rubber and the determination on the part of Great Britain to realize on the situation, there is little relief in sight," said Mr. Pepperdine.

Relative to the possibility of the tire manufacturers developing their own plantations and sources of rubber supply, and the practicality of reclaiming rubber, Mr. Pepperdine said:

"It takes approximately five years to bring rubber plants into bearing and for this reason we believe that it is a matter of at least three or four years before the tire manufacturers can relieve the situation sufficiently to effect lower prices of tires. As far as the reclaiming of rubber is concerned, the manufacturers of high-grade tires feel it is not advisable to mix old rubber with the quality of raw rubber that is necessary to insure service in their products.

Conditions in the auto supply business during the past seven months have been fair and satisfactory, and the outlook is for normal business for the remainder of the year.

"A period of steady progress in a healthy situation," said Mr. Pepperdine, "and one that aids business. In a short time, probably just a few months, the tire and camping supply business has started sales in the auto supply line, which is naturally expected at this season."

Sales in July of the Western Auto Supply Company, which operates 127 stores in the Rocky Mountain and Pacific Coast States totaled more than \$1,000,000, compared with \$1,000,000 in the corresponding month of last year, an increase of 16 per cent. Sales for the first seven months of this year approximated \$6,000,000, compared with \$5,000,000 in the period of last year, an increase of 20 per cent.

SUBTERFUGES ABANDONED

Some of the more aggressive national bankers apparently are willing to risk the displeasure of the

public by the guise of "term accounts" or "compound interest accounts," national banks for several years have been advertising for savings business, agreeing to pay 5 per cent on such accounts. Advertisements, however, have fully omitted the term "savings account," in deference to the unwritten custom of the banking business. This campaign, however, brought in a good volume of new business, and in no way is in violation of the provisions under which national banks are organized.

The latest aggression, however, of the national banks is not viewed with much equanimity by the State institutions. In California, the State banks have been advertising savings business, and the Superintendent of Banks has intimated that infractions will be dealt with severely.

The Comptroller of the Currency approved of extension into the savings field, it is possible that the State Banking Department will hesitate to put the law to test.

LONDON Daily Radio

BY ARTHUR W. KIDDY
BY WIRELESS—EXCLUSIVE DISPATCH
Copyright 1925, New York Evening Post, Inc.

LONDON, Aug. 12.—Financial markets were quiet and featureless today.

Mining shares were in better demand, responding to the announcement of plans for the new combination to control sales of diamonds. De Beers was strong.

International stocks were inclined to improve, while investments held steady. Rubber shares continued to rally slightly, but oils were sluggish.

The further rise of unemployment figures is calculated to stimulate Socialism—or it would be more correct to say Communist—activities.

The money market is being affected by the situation, the most important of which is unemployment caused by the drop in the bank rate for which traders were responsible. They are now talking of unemployment figures to morrow at 4 per cent, but it would be well to disregard all such suggestions.

Cable reports from Berlin show considerable improvement in Germany, indicating there has been considerable difficulty in clearing up the Stinnes estate. The trouble, of course, has been that although Stinnes' assets are good, German capital available for such operations is comparatively small.

The recovery in rubber share prices is probably due to the fact that the reaction was overdone, just as the July rise had gone too far.

NATIONAL BANKING
OFFICER IS VISITOR

J. W. McIntosh, comptroller of the currency, with headquarters in Washington, D. C., arrived in Los Angeles yesterday, and will remain several days for the purpose of conferring with leading bankers. He is making a tour of the country to study the operations of national banks at first-hand and to observe general business conditions. In company with J. W. Logan, national bank examiner for this district, the comptroller spent yesterday in visiting several of his acquaintances among the Los Angeles bank executives.

Presidents of the Los Angeles banks will formally meet Mr. McIntosh today noon, as the guests of J. W. Logan. Dr. D. C. McFadden, the Citizens' Banker, who is giving a luncheon at the California Club in honor of the distinguished visitor.

Unquestionably the return to gold accelerated the decline in

SAVINGS ACCOUNTS SOUGHT

National Banks Invade Field of State Institutions;
Take Aggressive in Competition for Business.

BY EARLIE E. CROWE

Throughout the nation there seems to be a growing tendency on the part of the national banks to relinquish pretensions to dignity and to go out after business in earnest. Usually, the banks operating under State charters have been the aggressors, mainly because of the freedom of action permitted under State laws. National institutions generally have been contented to accept a reputation of conservatism, and remain strictly within the limits provided by the National Bank Act. Lately, however, and especially during the days of the McFadden Bill in Congress, the national banks have looked rather enviously at the astonishing growth of the State banks, and to see is to covet.

All of this has been threshed out, State banking officers and the State bankers in general. In a few instances they have cut taxes and abandoning subterfuges for a direct appeal for "savings accounts," on which 4 per cent interest will be paid. These advertisements, however, are not the work of State bankers, but are appearing in Los Angeles under the name of a leading national bank.

In some instances, the country, particularly in urban areas, the St. Louis, national banks, with the permission of the Comptroller of the Currency, have even incorporated the word "savings" in the name of the bank. "National Trust and Savings Bank," these institutions are directly bidding for savings business, and offer outright competition to the State banks.

METHOD FOUND

As good business men usually do, they have found a convenient loophole. Under an unwritten law, the national banks have discreetly refrained from soliciting savings accounts generally conceded to belong peculiarly to the State banks. But now, with the advent of the McFadden Bill, they are

under the guise of "term accounts" or "compound interest accounts," national banks for several years have been advertising for savings business, agreeing to pay 5 per cent on such accounts.

Advertisements, however, have fully omitted the term "savings account," in deference to the unwritten custom of the banking business.

This campaign, however, has brought in a good volume of new business, and in no way is in violation of the provisions under which national banks are organized.

The latest aggression, however, of the national banks is not viewed with much equanimity by the State institutions. In California, the State banks have been advertising savings business, and the Superintendent of Banks has intimated that infractions will be dealt with severely.

The Comptroller of the Currency approved of extension into the savings field, it is possible that the State Banking Department will hesitate to put the law to test.

Sales of Large
Chain Stores in
July Show GainPublic Utility
in East Passes
to New Control

Gross sales of the larger chain-store organizations of the country established high records for some companies both in July and for the seven months of the current year, according to figures just issued.

J. W. Woolworth & Co. reported sales of \$15,525,920, new high figure for July on record, and a gain of 11.75 per cent over July of last year. Sales for the seven months were \$119,211.

Krebs Company for July reported gross sales of \$7,509,647, a gain of 17.8 per cent over that month of last year. For the first seven months of the year total sales were \$52,184,547.

J. C. Penney Company reported gross sales in July totaling \$5,581,617, an increase of 23.3 per cent over July of last year. Gross sales for the first seven months were \$41,549,526.

July sales of the McCrory Stores Corporation were \$12,149,775, a gain of 12.5 per cent. Seven months' sales totaled \$44,223,284.

Imac Silver & Bros. Co. reported an increase of 26.6 per cent. Total sales for the seven months' period were \$1,987,847.

TAX LEVY RAISED

SALT LAKE CITY, Aug. 12.—The tax levy for Salt Lake City this year has been fixed at \$2.3 mills as against \$1.7 mills last year. This is the second consecutive year of a mill increase for city school purposes, and 1 mill for State schools. The State levy has been increased, although State funds are good, German capital available for such operations is comparatively small.

The recovery in rubber share prices is probably due to the fact that the reaction was overdone, just as the July rise had gone too far.

BUSINESS TODAY

With Sterling Now Stabilized, British Price Decline is
Checked and Levels Abroad and Here Should Move
More Uniformly Than Before Gold Basis.

BY PAUL WILLARD GARRETT

British prices at a time when commodities here were falling moderately and forced the recession to continue long after the movement turned upward in this country.

PRICE INDEX RISES

Word now comes that economic indices for July, with the exception of wholesale prices at the end of each month, advanced. The downward sweep in values that has been reported monthly this year appears to have checked, at least for a time.

Stabilization of the pound sterling has removed one of the chief forces tending to depress prices and opens the way again to conditions that should stabilize and even move more and more between the

***** BUSINESS *****

PHILOSOPHY

BY WILLIAM FEATHER

A compound interest table furnishes interesting reading. You can find yourself in such a table. How well we could all fix ourselves for the autumn of life if we had the resolution to lay something aside regularly and the will power to keep away from foolish investments.

As sterling rose in value and less money was required to buy an equivalent amount of wheat.

That is what we mean when we say that sterling's rise to parity this year greatly depressed commodity prices in Great Britain.

Unquestionably the return to gold accelerated the decline in

VALLEY MELONS
SPEEDED EASTExpo Sets Shipping Mark
of 615 Cars in Day
from Imperial

Transportation to eastern markets of Imperial Valley's big 1925 cantaloupe crop was highly successful, with a new record of 615 carloads shipped in a single day, according to a report filed today in the office of T. H. Williams, assistant general manager of the Southern Pacific Company.

Approximately 14,500 carloads of cantaloupes were shipped to the East this year. Of these, the Southern Pacific handled 98.6 per cent without delay in the scheduled time of seventy-five hours from Brawley to Tucson, New Mexico, where the trains were delivered to the Rock Island lines.

First shipments this year left the valley on May 7. The first train load was shipped May 21, while the peak movement of 615 cars was handled from the valley on June 11.

The Imperial Valley ranchers received good prices for their cantaloupes this year.

***** IRON TRADE
TREND SEEN
AS UPWARD

Moderate Tonnage Gain
and Improving Outlook for
Future Reported

***** EXECUTIVE DISPATCH
CLEVELAND, Aug. 12.—Modest expansion of incoming tonnage, already experienced by producers, plus increasing demand for the future months, sums up the present iron and steel situation, reports the Iron Trade Review.

Production has held up so well recently that a better indication of the soundness of underlying conditions, which continue to provide wide diversity and a liberal range of commercial needs, has come about. Confidence has succeeded recent skepticism, bringing with it the belief of a turn to better things after four months of flat market interest.

Final statistics show the July output of steel ingots to have been almost 65 per cent above July, 1924, which was the low point of the year. Steel production this month was 72.4 per cent above the single month on record in steel works activity, which was March, 1924.

These comparisons emphasize the relatively high rate at which production has held up recently and present indications are that August will show some increase.

For the first time since the middle of May, the steel corporations are operating above 75 per cent in their ingot departments. Independent plant activity ranges from 65 to 70 per cent. Another 100,000 tons of steel has gone into Pittsburg, but one has been sent out at Chicago and two others have been banked at Buffalo and Toledo. Steel prices have yet to respond with a corresponding increase and irregularities still persist. Production reflects a more solid footing. August shipments are ahead of July and fourth quarter buying is heavy. Production in Southern Ohio is up 50 cents.

Dealers are putting up the asking price of iron and steel scrap. Consumers are closing cautiously and less inclined to buy on credit. It is estimated that Ford-purchased government ships will provide 295,000 tons of scrap at an average of \$24.00 per ton.

The Iron Trade Review composite of foreign leading iron and steel products this week is at \$27.45, compared with \$27.45 a week ago and \$28.37 three months ago.

***** TAX LEVY RAISED

SALT LAKE CITY, Aug. 12.—The tax levy for Salt Lake City this year has been fixed at \$2.3 mills as against \$1.7 mills last year. This is the second consecutive year of a mill increase for city school purposes, and 1 mill for State schools. The State levy has been increased, although State funds are good, German capital available for such operations is comparatively small.

The recovery in rubber share prices is probably due to the fact that the reaction was overdone, just as the July rise had gone too far.

DATA FOR RUM CASES STOLEN

Federal Offices Invaded by Desperate Runners

United States Attorney Will Carry on Prosecution

War Against Underworld in City Gains Impetus

Rum runners and hijackers in a last desperate stand against the authorities have raided the offices of the United States Attorney and escaped with complete records of five important liquor conspiracy cases. Chief Criminal Assistant United States Attorney Lucas yesterday afternoon made public announcement of the theft of records but stated that the cases will be prosecuted just the same although most of the government testimony is in the hands of the rum runners.

"We have every reason to believe that rum smugglers and their land agents are making every effort to defeat the prohibition enforcement by foul means," declared Mr. Lucas while discussing the theft of the records.

RECONCILE VANDISH

"There can be no mistake that the files in question were stolen," Mr. Lucas declared. "Every office where they were kept, has been searched and they have simply vanished. From now on every important bit of information, evidence and records will be kept under special lock and key."

The fact that the records have disappeared from one file constitutes only a very minor annoyance to its physical self, but the fact that a chronicle of our evidence may have fallen into the hands of the defendants is far more serious."

After announcing the loss of his records and files Mr. Lucas also declared that a special session of the Federal grand jury may be called to investigate the entire rum-running situation in Southern California and also to go into the evidence surrounding the recent trial of Pauline DeMille, Mrs. Windham and Wykoff made a few days ago that hijackers robbed them of more than 400 cases of whisky and a motor truck that drove off with the cases taken from San Pedro Police Station in Central Police Station. After the two police officers made the report of the loss they were suspended and since the police authorities are making an investigation of their story.

In the meantime, Inspector of Detectives Davis in command of the police department's vice division, Chief Deputy District Attorney Pitts and officers from the Sheriff's office yesterday continued their drive against rum-runners, hijackers and other members of the underworld.

SEARCH FOR SCORE

Inspector Davis' men armed with warrants, began a new search of the city for almost a score of men said to be leaders in the underworld. When they had been a number of weeks ago, arrested in several members of the various gangs landing in local hospitals for bullet wounds treatments. A report last night from the police station to Inspector Davis, that most of the wanted men have left the city or gone into hiding.

Two police detectives spent the day yesterday searching for Nicholas Dondolas, better known as "Nick the Greek," a heavy gambler wanted on a charge of wounding a woman in a shooting. Word came from the underworld that they say are friends of the gambler came to the police station yesterday that he had left the city for the East.

Members of the Sheriff's office working with Mr. Pitts yesterday morning and all through the day continued to bring in various underworld characters apprehended by the authorities and they ordered to leave the city or to stand trial on vagrancy charges. All of the men, according to Mr. Pitts, agreed.

Mr. Pitts also announced yesterday that Guy McAfee, gambler, high in the councils of the Milton "Farmer" Page faction, had left the city. McAfee, who has taken a number of other gamblers with him, Pitts said that the men against the various elements of the underworld, will constitute a list of those have been driven out of Los Angeles.

WAR TO FINISH

"We are not going to let up on this thing until it is over," stated Pitts yesterday. "The good work has just begun and with the help of the other departments of the Sheriff's office and the other law-enforcement bodies of this country we are going to see it through."

Following orders to clean up the underworld characters wherever found, Deputy Sheriff Dewar and Peoples yesterday took into custody Steve Warren and

FAMOUS TEA GROWING DISTRICTS - No. 1

Nuwara Eliya—in Ceylon

The picturesque beauty and temperate, health-giving climate of the plateau of Nuwara Eliya, situated in the central part of Ceylon at an elevation of 6000 to 7000 ft., have long made this rare spot a world famous holiday and health resort. The high elevation and the cool, clear air are ideal for the growth of tea. Nuwara Eliya is now the finest tea growing district in Ceylon, if not in the world. For many years, millions of people have been enjoying these wonderful teas in the delicious "SALADA" blends. "SALADA", with the full delicious flavor sealed in air-tight aluminum foil, is sold in nearly every grocery store in North America.

Hostilities at an End and Everything's Lovely

Through Wrangling in Court

The beautiful Helen Cressman Carr and Alexander Carr, the sprightly half of the Potash and Perlmutter stage team have buried the marital battle-ax, put an end to their court wrangling and are enjoying outings together, according to friends.

KEEP PLEDGE TO SANTA BARBARA!

(Continued from First Page)

relief fund will go to help these distressed people. Hundreds sleep in tents in their gardens, fearing to take the night, that the toting of the town is a pitiful sight—their church and recreation hall a ruin, their homes all askew and brazened with mud.

ROBERTSON: DESPERATE NEED

MINIMUM MISSION NEEDED
(By A. P. MORTY WISE)

SANTA BARBARA, Aug. 12.—The minimum amount necessary for restoring the Santa Barbara Mission, badly damaged by the earthquake of June 19, last, has been set at \$150,000 by engineers who have examined the structure for the mission padres and the municipality of Santa Barbara. This was made known in state news issued by Father Augustine Augustin, church manager.

Gray Margolis and took them to the Sheriff's office for questioning. Both of the men, according to an official, were released by the police. They were released after they had promised, according to Pitts, to leave the city within three days.

HALF-MILLION NEEDED

MINIMUM MISSION NEEDED
(By A. P. MORTY WISE)

SANTA BARBARA, Aug. 12.—The minimum amount necessary for restoring the Santa Barbara Mission, badly damaged by the earthquake of June 19, last, has been set at \$150,000 by engineers who have examined the structure for the mission padres and the municipality of Santa Barbara. This was made known in state news issued by Father Augustine Augustin, church manager.

ROSS MONTGOMERY, Los Angeles architect, engaged to supervise restoration of the mission, said yesterday that he did not believe the amount would be sufficient, asserting that the cost of restoring would be heavier than a new building would be.

A committee in Los Angeles, embracing California territory south of Santa Barbara, has accepted responsibility for raising \$60,000 and a minimum of \$30,000 in San Francisco has accepted responsibility for \$250,000 in Northern California, leaving \$50,000 to be raised through efforts here, Father Augustine said.

SANTA ANA ABANDONS RELIEF APPROPRIATION

(EXCELSIOR DISPATCH)

SANTA ANA, Aug. 12.—Plans for an appropriation of \$25,000 through a new tax levy for Santa Barbara relief fund were abandoned today by the Orange County Supervisors upon discovery that such a step would not be sufficient.

A committee in Los Angeles, embracing California territory south of Santa Barbara, has accepted responsibility for raising \$60,000 and a minimum of \$30,000 in San Francisco has accepted responsibility for \$250,000 in Northern California, leaving \$50,000 to be raised through efforts here, Father Augustine said.

DESPERATE NEED

Desperate, indeed, is the hospital situation. Even the County Hospital, which still houses patients and is dreadfully over-crowded, has been partially demolished. The great new St. Francis Hospital, with a debt of \$120,000 still against it, for which funds were collected over years, stands a ruined skeleton, where a relief fund of 150 patients. Now but fifteen patients can be cared for in the little old hospital nearby, which, too, was badly damaged. A new hospital is to be built in its place.

GIFTS OF PUBLIC FUNDS FROM ONE POLITICAL SUBDIVISION TO ANOTHER ARE EXPRESSLY PROHIBITED UNDER THE STATE CONSTITUTION, IT WAS FOUND.

REPORT: SANTA BARBARA RELIEF FUND

SANTA BARBARA, Aug. 12.—Plans for an appropriation of \$25,000 through a new tax levy for Santa Barbara relief fund were abandoned today by the Orange County Supervisors upon discovery that such a step would not be sufficient.

A committee in Los Angeles, embracing California territory south of Santa Barbara, has accepted responsibility for raising \$60,000 and a minimum of \$30,000 in San Francisco has accepted responsibility for \$250,000 in Northern California, leaving \$50,000 to be raised through efforts here, Father Augustine said.

BOYD: RELIEF EMPHASIZED

(By A. P. MORTY WISE)

SANTA BARBARA, Aug. 12.—The urgent need for emergency relief for Santa Barbara's earthquake victims was emphasized yesterday by Henry S. Pritchett, chairman of the State committee, which is engaged in a campaign to raise \$150,000 for the city of Santa Barbara.

"Only \$90,000 has been turned in to date and the entire amount has been paid out for emergency relief," said Mr. Pritchett. "The balance sought is urgently needed for the housing of orphans and providing temporary school facilities for the displaced quarters for hospital patients and for general charitable work."

The \$110,000 will provide only the most necessary assistance. The fund will be used by the committee to carry on and to do charitable work for which no funds are available.

OPTIMISTIC REPORTS HAVE BEEN RECEIVED FROM THE SAN FRANCISCO AND LOS ANGELES COMMITTEES AS TO THE RAISING OF THEIR QUOTAS.

THEIR LEADERSHIP, HOWEVER, IS CONCERNED OVER THE LITTLE SISTER SISTERS, MOTHER-SUPERIOR OF THIS NON-SECULAR HOSPITAL, WHERE ALL ARE CARED FOR.

ONE REPORT SAID THAT THE RELIEF FUND DOES NOT BEING TO TELL THE TALE OR EXPLAIN THE URGENT, DIRE REASONS WHY THIS TRIFLING RELIEF FUND OF \$1,100,000 MUST BE RAISED IMMEDIATELY.

THE SANTA BARBARA RELIEF FUND COMMITTEE AGREED THAT THE ACTION OF THE CALIFORNIA LEGISLATURE PROMISED SANTA BARBARA THAT SHE WOULD TAKE CARE OF HER—THAT IS WHY NO NATIONAL APPEAL WAS PERMITTED—THAT IS WHY CALIFORNIA MADE FOR HER CREDIT.

ONE REPORT SAID THAT THE RELIEF FUND MAKES GOOD.

LITTLE LEE GATSON SET A JOYOUS EXAMPLE OF GOOD SAMARITAN PROMPTITUDE. ONLY 200 POPULATION IN THAT LITTLE TOWN, WHICH HAS BEEN ANY ORGANIZED RELIEF FUND, BEFORE THEY EVEN KNEW THE EXTENT OF THE MISERY ENDEMBLED.

LOS GATOS SENT \$850.

Hotel Excelsior, Rome.**LOS ANGELES (Loco Ahng-hay-ahs)**MEMBER OF THE ASSOCIATED PRESS
The Associated Press is a cooperative service to
the news media of the world. It is owned and
operated by a group of newspaper publishers who
have joined together to furnish the public with
the news of the world.We thank some of our friends to be accurate
in their publications about us. We do not
desire any important information of statement
of our business to be made available to the
public through the efforts of the editorial department
of the Los Angeles Times.**COMING AND GOING**
The reason why so many people live
within their income is because it is much
easier to live without it.**GROWING SECT**
Recent earthquake scares from coast
to coast have made a lot of people turn
to religion. And a good many of them, one
assumes, have become Quakers.**A SKS NO QUARTER**
The man who is just back from a
vacation trip has had a financial puzzle
to play with. He says he knows exactly how
it feels to be paying out good dollars for
poor quarters.**PERFECT PARADISE**
A tourist hotel in the Bavarian Alps
respectfully requests its guests to pay their
bills before they start to climb the mountains.
Surely that place should be a paradise
for accident-insurance experts.**GETTING THE RANGE**
King Alfonso is a dead game sport and
is highly popular in Europe, but nevertheless
the life-insurance companies do not
consider him a good risk. One of these
days a Red who can really shoot may get
within range.**VERY SELFISH**
Some men are incurably selfish. Consider,
for example, the West Virginia mill-
worker who refused to permit the undertaker
to bury him after all preparations had
been made, using the silly excuse that
he was not dead.**BY DEGREES**
Secretary Hoover has been made a doctor
of laws by the University of Kiel in Germany.
Herbert has more degrees than
the longest thermometer Fahrenheit ever
made. If a man can get to heaven by de-
gree he will have a seat on the roof.**PRESSING HIRZUTE**
If cigarette smoking and mud packs
cause the hair to grow on the faces of our
women our loved ones may ultimately be
in position to raise their own furs. Also
when the springtime comes gentle Annie
will know where hirsute is coming from.**THE OPEN DOOR**
It is whispered that the only application
for a pardon that has been refused this
season by Gov. Small of Illinois was made
on behalf of a convict who escaped from
prison several days before his papers had
been reached. Some aver that last year
more were freed than were confined. This
doesn't inspire the wicked to respect the
law.**GERMAN SKYSCRAPPERS**
The new nineteen-story building in
Cologne is the greatest skyscraper thus far
known to Germany, but it may be only the
overture for the big show. The new structure
is not on the checkerboard pattern as
usually worked out in American steel, but
carries some of the lines of a German castle.
The Germans are invincible when em-
ployed in the constructive arts of peace.**WIRELESS WONDERS**
We understand that the MacMillan
expedition into the Arctic is in regular
radio communication with the naval station
at Washington. It is a far cry from
Virginia to Greenland, but the explorers amid
the ice pack are still in touch with their
fellows. Amateur radio operators in various
sections of the country have also been
able to tune in on the Aurora Borealis station,
so that the progress of the adventurers
is known of all. What's the matter with
using the North Pole for a wireless mast?**THE RAGE FOR ROSE**
When women take to painting their
faces they seem to use but one color. Red
paint is about the only brand of decoration
in which they heavily indulge. Must every
maid and matron wear a rosy map? A doctor
says that some very healthy women are
naturally fair or pale of complexion and
this natural pallor is vastly becoming to them.
On the other hand, rosy complexions
may be evidences of waning vitality.
The natural and sensible woman will
understand that good health bestows a good
complexion and physical beauty.**DRY IN THE NORTH**
The city of Portland had a stretch of
sixty days without rain. This is said to be
the longest drought the district has ever
known. Portland babies are said to be born
with rubber boots and during this dry spell
the pavements smelled like a trip through
a canning plant. An umbrella is usually
the last course with a Portland breakfast.
No man thinks of leaving his home
without his trusty umbrella or a mackin-
tosh, but during July the street cleaners
picked up enough abandoned umbrellas
to make a circus tent. It seems funny to
see Portlanders going about with parades
dangling below the third vest but-
ton.**A RIZONA—CALIFORNIA**
Trade expansion is the translation of
the handwriting across the seawall of Southern
California, the magic password which
will admit the metropolitan district of Los
Angeles to its place in the sun.In this sense trade expansion and co-
operation are synonymous terms. A commu-
nity cannot raise itself by tugging at its
own bootstraps, and the sooner Los Angeles
and Southern California enter upon a practical
working arrangement with other communities
on a quid pro quo basis the sooner
will we receive our reward.An exceptional opportunity to put into
practice a co-operative plan for the estab-
lishment of closer trade relations between
Los Angeles and Arizona has been formulated
by the Arizona Industrial Congress
and has the enthusiastic approval of the
chambers of commerce of Phoenix and Los
Angeles and of forward-looking citizens of
both States.Arizona needs more population, partic-
ularly more farmers. She has, in the Salt
River Valley, of which Phoenix is the hub,
a Crossos-like soil, but she lacks man power.
There are only 12,000 real dirt farmers in
the whole State of Arizona. She must
have colonization and land development to
realize on nature's lavish investment. At
the present time it is said that the cul-
tivated lands of Arizona could accommodate
25,000 new families.Getting back to the original proposition
that the greatest need in Los Angeles and
contiguous territory is trade expansion, is
it not easy to visualize the possibilities of
the concurrent requirements of our neighbor
State?Within 500 miles or thereabouts of Se-
enth and Broadway is produced in Arizona
one-half of the copper output of the United
States; 6,000,000 pounds of the finest wool;
thousands of bales of high-grade cotton;
lead; zinc; silver and other products which
have given to the State the sobriquet of
"Nature's Storehouse." Of the total pro-
duction of Arizona about 30 per cent goes
east of Chicago and practically nothing to
Los Angeles. It requires no elaborate stat-
istical tables to demonstrate that the de-
velopment of this great potential trade ter-
ritory will spell increased business, a tremen-
dous harbor impetus—in a word, trade
expansion.Naturally Arizona purchases follow the
market, which means that the East is get-
ting a large share of the purchases which
should come to Los Angeles by every law
of propinquity and good business. Millions
of dollars are to be spent within the next
few years upon our harbor, and it is highly
desirable to begin building a foundation for
our expanding trade not altogether of an
asphalt base. Here is a fine starting point.Something has already been done. The
Arizona Industrial Congress has offered to
develop trade relations in return for people
on the soil. The Los Angeles Chamber of
Commerce, through a relations committee
headed by William Lacy, is at work upon
a definite operating plan by which Los An-
geles may extend her trade territory and in
turn populate the Arizona farm area.This committee is to meet with the di-
rectors of the Arizona congress in a few
weeks to formulate plans through which an
economic exchange can be carried out and
trade relations and land development stim-
ulated.The Times believes that a great oppor-
tunity exists which, if embraced intel-
ligently and in a full spirit of co-operative
benevolence, will provide a nucleus from
which two great communities may work out
their destiny in a unity of mutual helpful-
ness.**TEAM WORK**
President Coolidge seems to have gone
about the work of saving the United States
Senate some sort of definite leadership. He
aims to be himself the head of progressives
who allowed themselves to be misled by
La Follette and others so long the dominating
influence in that body. The President
is, in fact, the true progressive in Amer-
ican politics today, just as he is a true dem-
ocrat. He has made courage and honesty
popular.There is a vast difference between talk-
ing loudly and making things actually ad-
vance. The American weakness for re-
ounding words and phrases, coupled with a
national indifference to definitions and
applications, was never more startlingly
shown than in the brief ascendancy of that
utterly false school of mock progressive-
ness headed by our so-called radicals, who
were not radicals at all, but reactionaries
of the worst and most dangerous sort. The
President has cleaned up our national un-
derstanding on these points.The Senate had degenerated into a dis-
putative body that was continuously ran-
ning wild and throwing traffic into spasms
by the violence and erratic nature of its
outbreaks.The truth is that the Senate was leader-
less. A small group of old-timers had lost
their grip. Penrose was gone. It is doubt-
ful if Lodge ever was a leader. The rest
of the Senate's brains, it is to be imagined,
were too limited to cope with a situation
that called for peculiar talents that they
lacked, talents of political acumen, par-
liamentary skill and, above all, the forceful
Rooseveltian courage required to cast con-
tention to the winds and ride rough-shod
through the political hoodwinks and panic-
stricken dumb heads of a stampeded Sen-
ate.There are two reasons why the President
can tame the Senate and get it back on
the reservation. One is that it wants to
get back. The other is that he has the
tireless and irresistible courage of complete
sincerity and sanity.Mr. Dawes, like the nation at large, holds
the Senate in too great contempt to give
it the human and patient treatment that it
needs. But the combination of President
Coolidge and Vice-President Dawes is a
happy one, for the Vice-President has cas-
tigated the Senate into a mental condition
which makes possible the more careful and
tactful handling by the President. One's
sympathies may be perhaps with Mr. Dawes,
but we will fare better because the Presi-
dent has taken the Senate situation more
temperately in hand.**DEMAGOGUE'S IDEA**
The demagogue's idea of progress is
change. Changes for the worse or the better
all look alike to him. He does not know
that all the real progress in this country
has been made not because of politics, but
in spite of politics and, for the most part,
in the teeth of politics.It is grim irony that where these brave
men and women starved to death today a
remarkably fine hostelry caters to the sated
appetites of cross-continent limousine trav-
elers.If the Donner party could have made one
more day's journey it would have found**"FOR YOUR COUNTRY'S SAKE"**
Cables from Paris assert that prohibi-
tion, high tariffs and the temperance
movement in other countries have occa-
sioned a wine crisis in France. America
buys no more wine. Since England has
levied a stiff tariff on wine the consump-
tion has fallen off more than one-half. Ger-
many will buy no French wine, boycotting
it along with other French products. High
tariffs in Belgium and Switzerland act as a
barrier. This closing of foreign markets
leaves the industry in a bad way.Patriotic Frenchmen, including the women
of the wine district, make the following radi-
cal comment:The south has in the last election
gone racial and Socialist while the
National bloc seems to have no under-
standing of its failure. If, with the new
majority, no help is forthcoming to us
we have nothing to do but to give the
power to Communist candidates. But
they must promise us that the entire pop-
ulation and that every Frenchman will
either drink the liters of wine that fall
to him or have them drunk by a friend.At the wine and liquor congress held in
Paris last month Baron de Mun, Marne De-
puty, denounced prohibition as immoral and
contrary to the teaching of the Bible, and
further announced the formation of the
"League of the Opponents of Prohibition."
The French were exhorted to drink more
wine as a proof of patriotism, for only in
this way could a great industry be pre-
served.But, much to the disgust of the wine
growers, a temperance movement is gain-
ing ground in the very heart of France.
The Academie of Medicine in Paris has
sounded a warning against the evils at-
tendant to the increased consumption of
alcoholic liquor by women. After a series
of experiments Prof. Achard announced
that cirrhosis of the liver due to alcohol is
exactly twice as common in women as in
men.Overproduction last year amounted to
more than 50,000,000 hectoliters, and pro-
pects for marketing the present crop are
increasingly gloomy. "If you love your
country drink more wine" is the slogan
of the wine growers; and, with true Latin log-
ic, they justify the failure of France to pay
its war debt to America by alleging that
through prohibition, the Americans willfully
destroyed one of the leading industries of
France.There are two reasons why the President
can tame the Senate and get it back on
the reservation. One is that it wants to
get back. The other is that he has the
tireless and irresistible courage of complete
sincerity and sanity.Mr. Dawes, like the nation at large, holds
the Senate in too great contempt to give
it the human and patient treatment that it
needs. But the combination of President
Coolidge and Vice-President Dawes is a
happy one, for the Vice-President has cas-
tigated the Senate into a mental condition
which makes possible the more careful and
tactful handling by the President. One's
sympathies may be perhaps with Mr. Dawes,
but we will fare better because the Presi-
dent has taken the Senate situation more
temperately in hand.**WITHIN A DAY**
In Northern California, just over Ein-
grain Gap on the Lincoln Highway, is a
historic spot. Donner's Lake is innocent
of excitement and thrill today; but it could
tell a tale of terror. It is one of the tear-
drops of California.The Donner party had fought nature
across the desert and mountain. Hostile
Indians beset these hardy heroes at every
turn. Famine and winter came howl-
ing down from the icy peaks.Almost the entire party succumbed with-
in a day's journey of the sunny western
slopes of the Sierra Nevadas. An impos-
ing monument in granite and bronze marks
the spot near the eastern shore of the lake.
A cabin filled with keepsakes and a caretaker
reminds the curious visitor of these
bitterers of the western trail.It is grim irony that where these brave
men and women starved to death today a
remarkably fine hostelry caters to the sated
appetites of cross-continent limousine trav-
elers.If the Donner party could have made one
more day's journey it would have found

Hands Across the Sea (New Version)

Just About It

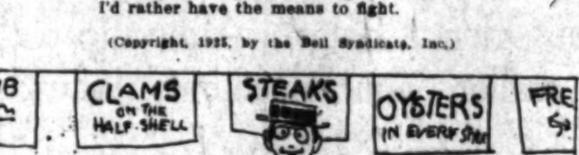

By James J. Montague

ON DISARMAMENT

The lobster only fights because
He has a pair of brutal claws.The tiger would be quite polite
If he lacked teeth with which to bite.The bear would bask in calm repose
Has he no paws to crush his foes.In peace the gnu, from night till morn
Would sleep, excepting for his horn.The eagle would be mild and meek
If he had not a strong bone beak.The clam lies quiet in the sea,
No rude belligerence is he—He's unresisting, kind and tame.
But people eat him, just the same.The oyster's mild and gentle, too,
But he is often in a stew.The cow would do no creature wrong.
Yet she don't live so very long.So if I knew I had to be
A creature of the wood or sea,Although perhaps it isn't right,
I'd rather have the means to fight.

(Copyright, 1925, by the Bell Syndicate, Inc.)

Careless Motorists

Many farmers of the country are
facing a problem, caused by motor-
ists. This is brought about by
carelessness in throwing litigated
cigarettes or cigars from motor-
cars while traveling over the roads.Many fires have been caused this
year and, in one or two cases, it
was due to the carelessness of
motorists who allowed litigated
cigarettes or cigars to fall into the
cradle or the grave. How restless
they get and how troublesome. How
it turns from companionship, even
of books and papers, to the
cigarettes or cigars.Motorists should follow the
practice of using many state parks
and on government property. If
you light a match be sure that it
is out, then break the match in two
before you throw it away.Be sure your cigar or cigarette
is out before you throw it away.—
(Cleveland Plain Dealer.)

The Mills of the Gods

This is an old Greek aphorism
taken from the "Oraeula Sibyl-
linea." The original, literally
translated, reads as follows: "The

Of Interest to Women.

SOCIETY

BY MYRA NYE

To Most Distinguished Guests

One hundred invitations have been issued by Mrs. Samuel L. Puterbaugh, 1121 Franklin avenue, for Thursday evening, the 20th inst., after the concert in Hollywood Bowl to meet the distinguished musicians appearing for the first time in this country. They are Rudolph Ganz, the conductor, and Miss Edna Gunner Peterson, who is the only California pianist who appears in the Bowl this season. Mrs. J. J. Carter will be an honored guest. Dancing will be enjoyed and it is expected that the occasion will be one of jolly informality, with rejoicing over the success of this program a success which is surely anticipated. Mrs. Puterbaugh, as leader of the music department of the Los Angeles Philharmonic Association, has made for herself a high position in the musical circles of the Southwest.

Musicals

Mrs. Allen Dudley and Mrs. August Goodnight entertained last night with a musical in honor of their musical friend, Miss Lydia Davis, of New York City. Mrs. Goodnight has been shopping at the Ambassador until recently, when she took the McCadden place in Beverly Hills, where the party was given.

Mrs. Burdette Returns

With Mrs. Webster Merrifield of South Grand avenue, Pasadena, Mrs. Robert J. Burdette made a trip to Alaska on a vacation voyage, having just returned. They are now spending several weeks at Santa Barbara. Mrs. Burdette's new home, Italian Villa type, is now being completed in the gardens of Hotel Maryland and will be ready for her occupancy in the autumn.

Return Visit

Mrs. Roy Silent of Tampico, Mexico, and small daughter Patricia are house guests of the Summer P. Hunt in Beverly Hills street for the second time this summer. The interior Mrs. Silent has visited her mother, Mrs. Peter Dunne of San Jose, and her sister, Mrs. Fred Dickinson, and spent several weeks at Santa Barbara. Mrs. Burdette's new home, Italian Villa type, is now being completed in the gardens of Hotel Maryland and will be ready for her occupancy in the autumn.

Bridge Too

Mrs. Silent and Patricia will be at the Hunt home for another week before returning to Mexico, where Mrs. Silent will be interested in oil. He is a grandson of the late Judge Charles Silent and made his home here six or seven years ago. Mrs. P. Hunt is a friend of the Silent family and of Mrs. Dunne as well.

Announcement

Announcement was at the Hollywood Country Club twenty friends of the bride-elect being bidden. The decorations were in gold and blue, while the bride was wearing a blue gown. Miss Schuck was graduated from Marborough School in the class of '24, while Mr. De Remer received his degree from California University.

Miss Peggy Schuck

ENGAGEMENT TOLD AT LUNCHEON

Friends of Bride-Elect Entertained

[Photo by Murillo]

FORMAL

Announcement was at the Hollywood Country Club of 527 McCadden Place, Hollywood, of the engagement of her daughter, Miss Peggy Schuck, to Edgar De Remer, the news being told recently at a luncheon given

for the ceremony. Mrs. C. E. Brown played the wedding march and the marriage music.

Given in marriage by her brother, Glenn Gunn, the bride is loyally in a white crepe dress and large picture hat. She carried a showy bouquet of roses and lilies of the valley. Mrs. J. B. Snyder, her sister, was matron of honor. The best man was Richard Long.

Mr. and Mrs. Jenkins are on their honeymoon journey in the north.

Announces Wedding

Miss James H. Tobin of this city announced the marriage of their oldest daughter, Miss Nellie Lillian Tobin to Arthur P. Fiske, formerly of Calgary, Canada.

The wedding was held at the latter's home in St. Andrews Place. Twenty-eight friends, the greater number of whom are members of Junior Ebell Club, were invited to meet the bridegroom, who will remain here until September 1. Many other delightful affairs are planned in her honor.

Miss Warmbath Entertains

A bridge luncheon of delightfully original and beautiful appointments was given Tuesday by Miss Alice Warmbath, popular downtown dancer, to Mrs. and Mr. Samuel M. Warmbath at their parents' home in Oxford avenue. A half hundred friends enjoyed the charming affair.

Miss Saber Entertains

For the opening night of "H. M. S. Pinafore" Friday, given at the Ambassador Flunge edge, Miss Antoinette Saber will entertain with a box party for the guests.

Mr. and Mrs. R. E. Burge and

Mrs. and Mrs. Charles E. Wilson, Mr. and Mrs. A. T. Wilson, Mr. and Mrs. Chester Wallace Brown, Dr. and Mrs. A. D. Cooke, Miss Dorothy Cooke, Miss Ellen Andrews and Miss Jean Hill.

These guests invited the bridge partners by the Wilshire Women's Club who are sponsoring these presentations for two weeks are the following: Mrs. Lucile Pleasant, Mrs. Charles E. Wilson, Miss Margaret Wiley, Mrs. Arch C. Murdoch, Mrs. Leo Johnson and Mrs. Richard Mercer.

It is planned that a portion of the receipts for the luncheon will be to turn over for the benefit of the blind for veterans children at Sawtelle.

Mr. and Mrs. T. Anderson will entertain the board of directors of the Opera and Fine Arts Club with a box party for the performance Saturday night. Among the guests will be Mr. and Mrs. R. E. Burge and Mr. and Mrs. Charles E. Wilson.

Mr. and Mrs. Leo Johnson and

Mrs. Richard Mercer.

It is planned that a portion of the receipts for the luncheon will be to turn over for the benefit of the blind for veterans children at Sawtelle.

Home Weddings

Miss Midvale Virginia Faver, the daughter of Mr. and Mrs. C. C. Faver of Syracuse avenue, Hollywood, was married the 19th inst. to Floyd W. Bodie, son of Mr. and Mrs. F. W. Bodie of Frankfort, Indiana. The bridegroom is a graduate of the home of the bride's parents, Dr. and Mrs. G. Johnson officiated. The bride wore pale orange coral headed chiffon with orange blossoms in her hair. She wore a white lace veil, a bouquet of roses and sweet peas. Miss Louise Treckel, maid of honor, wore pale green headed georgette and carried a bouquet of roses. Emily Miller, Mrs. Leo Johnson and Mrs. Richard Mercer.

It is planned that a portion of the

receipts for the luncheon will be to turn over for the benefit of the blind for veterans children at Sawtelle.

At New Home

Mr. and Mrs. J. T. Armitage entertained recently at their new home in honor of Mr. and Mrs. Walter K. Yott of New York City, who are their house guests. The delightful affair was enjoyed in the new home in South Milton Place.

At Beach Hotel

Dr. and Mrs. D. E. Chappell with their friend, Mrs. Randolph Neilson of Kansas City, are spending a portion of their vacation at the St. Regis Ocean Boulevard, Long Beach. Dr. Chappell is a surgeon-general of the State. We are superintending the building of a new hospital in Kansas City.

Wadsworth Harris was the guest of honor at a dinner given by the Chappells recently.

Wedding Announcement

One of the pretty weddings of the past week occurred at the home of the bride's parents, Mr. and Mrs. F. F. Gunn, 1712 Oxford avenue, when Miss Blanch H. Gunn was united in marriage to Harold C. Johnson, a member of the 1925 class from the University of California, Southern Branch.

Monogram Mrs. McGinnis

Mrs. Frank Tatum entertained Monday at her summer home in Del Rey for Mrs. Felix McGinnis who leaves this week-end for her home in San Francisco.

On Motor Trip

Mrs. Ida R. Keverman, Mrs. Helen Mathewson Laughlin and Mrs. Edith Swarts are enjoying a motor trip to the West. They are in Oregon and California.

They expect to be away for thirty days, having left Saturday.

Moonlight Dinner-Dances

Last night and tonight, members of the Edgewater Club of Southern California are entertaining with dinner-dances. The dancing will be enjoyed on the

HOST OF STARS FOR BIG WARNER SPECIAL

"Broken Hearts of Hollywood" to be Climax to Year's Production Activities

BY HERBERT MOULTON
"Broken Hearts of Hollywood," a big special feature, is to be made by Warner Brothers and every one of their contract players with the exception of John Barrymore and Lowell Sherman, who up to now have not been in new plays, is to be co-featured, according to an announcement made by Jack Warner yesterday.

This will be the grand climax of the year's schedule of forty pictures and will be the last one made. This means that every player on the Warner roster will be available for the parts that are being written into the script for them now.

It is a fitting climax to the year's activities inasmuch as 1925 is the first year in which Warner Brothers have got experience in their history of producing motion pictures.

There is to be no particular star or feature part, neither will any of the players be assigned to "extra" or small bit parts. Each one is to portray the character that has been the main object during the past year. Marie Prevost, Irene Rich, Louise Fazenda, Dorothy Devore, June Marlowe, Patsy Ruth Miller, Dolores and Helen Costello, Marion Davies, June Loy, Sybil Blue, Sydne Chaplin, Huntley Gordon, Willard Louis, John Roche, John Harron, John Patrick, Kenneth Harlan, Matt Moore, Clive Brook, Greta Garbo, Charles Conklin, Don Alvarado and Charles Farrell are among those who will have equal billing and be equally represented.

The type of picture is unique, as it will embrace the entire industry, for it is a story about Hollywood and motion pictures. It is to make the visitors believe that the stars and dates in the lives of the players off and on the sets.

To say that every player of the studio is to be represented is true even of Rin-Tin-Tin, who has quite a fat role.

This feature is to be made under the personal supervision of Bennie Fox, who is production manager at the studio, although it is not to be made before the latter part of the year. Roy Del Ruth is to direct.

Independents Busy
Independent producers are displaying an activity that has been unprecedented in Hollywood. In independent studios alone nine units are producing, establishing a record there.

John Ince is engaged in the production of "The Big Adventure" with Harry L. Rabinowitz and Grace Darmond in the leading roles. They are being supported by Vola Vale, John Darby, James Gordon and Carlton Griffin.

John is in the early stages of his production. Ince will make this year.

Rawlins is also working at the same time at the California Studio in the charming Fire and Ice

and is being directed by Bob Dillon, a brother of Jack. Brenda Lane is supporting Rawlins. When Rawlins is at leisure on one set he goes over to the other.

Harry J. Hueston, working with Harry Brown directing, is shooting "The Danger Quest," a South African drama with Reginald Doherty, Ethel Grey, Irene Lewis and a specially selected cast consisting of David ("Red") Kirby, J. C. McGowan, William Franklin, Fred Kohler, Joseph Gray, William Howard and Michael Hayes.

William Russell is starting his own production, "Big Pal," with Jack Adolphe directing. In the cast are Julianne Johnston, Mary Carr, Mickey Bonelli, Harry Stevenson, Frank Harney and Henry Barrows. A feature of the production is a fight for the heavyweight championship.

John Ince is directing a Gold Medal comedy featuring Jack Cooper and Jack Richardson.

Don Marlowe, sister of June Marlowe, is the leading feminine star. Fred Kohler, Sam Compton, Comtesse d'Artagnes and Comtesse Carpentier du Pommerac are working in the production for the audience to see.

Samuel Bischoff is producing a H. C. Wilmer comedy, "Classics in Slang," with Charles Delaney, Ed Phillips and Charlotte Morris. John and Joan Jones are working in the Big Comedy.

J. C. McGowan has started another feature Helen Holmes production.

Wikes Due Today

Following a series of delays en route to this city from New York, Thomas Wilkes, noted producer of musical comedies, will have here soon from San Francisco, where important business in connection with the presentations of "Kiki" and "White Cargo" prevented his arrival. Los Angeles Sunday for the premiere of "Playthings" at the Wilkes Orange Grove.

Theatrical circles here have been looking forward to his return to this city for some time.

As a result of eastern communications announcing the booking of many new plays and artists by Wikes.

And while no definite information has been received concerning Wikes' plans for the production of his new bookings here, Sidney Miller, manager of the Orpheum, has expressed his belief that with the arrival of the producer rehearsals for a number of plays will begin at once at the local playhouse.

Heavy Shuns Idleness

William Powell is letting no grass grow beneath his feet. While working on the Jimmie Foote to be completed on his impending trip to France and Spain as the trip in the Jack Meador-John Robertson production of Ibanes' "The Three Cities," he has given to give one more New York-made picture with his villainous sneer. He has joined the cast of "The White Wall," in which Howard Higgin is making his debut. The National, with a cast headed by Blanche Sweet and Ben Lyon.

Carey Off on Location

Harry Carey and the Hunt Stromberg company now filming

in the Bronx.

NEWS OF SOUTHERN COUNTIES

ORBISON NAMED PASADENA HEAD

South Pasadena Chief to be New Manager

Deadlock in Crown City at Last Broken

Choice Meets Approval of General Public

By a "Times" Staff Correspondent
PASADENA, Aug. 12.—After weeks of heated discussion the deadlock existing among the Pasadena Board of City Directors was broken at noon today and as a result R. V. Orbison, present City Manager of South Pasadena, was unanimously chosen City Manager of Pasadena. He will begin managing the affairs of the Crown City Monday morning at a salary of \$7500 a year.

Immediately after the action of the City Directors was announced O. D. Hunt, acting City Manager and his chief candidate for the permanent office, wrote out his resignation. The resignation was unanimously accepted by the board and will take effect the 15th inst.

INSTANT APPROVAL

Selection of Mr. Orbison was met with instant approval from citizens in every part of the city. Although he is a newcomer to the city, the man was received by former City Manager C. W. Koines, his duties will not be strenuous nor as responsible due to the recent change in the personnel.

The new City Manager has been head of the municipality of South Pasadena for five years. Previous to that he had served the city of Pasadena as assistant City Manager for a period of six years. He is considered very capable and well qualified with the needs of this city.

Selection of Mr. Orbison was taken as a surprise for, although his application has been in the hands of the Directors for some time, his name was never given out by the board as among the favored candidates.

EXPECTED FOR WEEK

The resignation of Mr. Hunt has been expected in this city for more than a week. Since Directors Carl E. Newcomer proposed Mr. Hunt as a permanent head of the city after the directors' decision, it was at that time that they were deadlocked on the question of selecting a new manager. Mr. Hunt received but three favorable votes. It takes five votes to elect a City Manager.

Mr. Hunt, who was serving as head of the city for forty-five days, took over the position when Mr. Koines resigned after a row with the new Board of City Directors.

Due to the fact that Pasadena has been without a legal head for more than a month the city broke an established precedent, that of electing a new manager. At the present much city work is being held up for this important item of business.

Mr. Orbison is a resident of South Pasadena, residing at 1500 South Bushnell avenue. He is a member of the American Society of Civil Engineers and is prominent in Masonic circles.

OXNARD ENROLLMENT IN SCHOOLS INCREASED

By a "Times" Staff Correspondent
OXNARD, Aug. 12.—Judging from reports from various sections enrollment at public schools in Oxnard and the surrounding country is expected to be greater than in 1924. In practice all communities, schools will open for the fall term on Monday, August 17. Registration is now in progress, the Oxnard High school with registrations 10 percent ahead of last year. Principal W. D. Bannister looks for a considerable increase in this school for the coming year. Grammar schools in Huntington, Ocean View, Camarillo, El Rio and several other places will open Monday. Some grammar schools will remain open until August 21. St. Joseph's Institute, local Catholic school, will open in two weeks with an increased enrollment, it was reported.

DANCE HALL PUZZLE FOR SOUTH PASADENA

By a "Times" Staff Correspondent
SOUTH PASADENA, Aug. 12.—Whether South Pasadena is the author of a public dance hall within her confines is the knotty problem which was presented to the Trustees and by them referred to the City Attorney. The idea of a building at 1024 Mission street made application for a dance hall permit and said that he proposed to conduct the place in such a manner that it would be a frequent haunts of the police. Trustee Gruetner said he opposed such an application but it was referred to Horace E. Vedder for ruling as to the city's jurisdiction in the matter.

BOND FIGHT GROWS HOTTER

Enthusiasm Increases in Santa Monica and Venice for Success at Polls

By a "Times" Staff Correspondent
SANTA MONICA, Aug. 12.—Enthusiasm in the campaigns being waged in this city and Venice for the passing of bond issues to be voted upon Friday is growing hourly, it was indicated today, and final plans are being laid to bring the issue Section nears.

In this city voters will pass upon a \$515,000 issue, \$35,000 of which will be used to provide an adequate fire protection system with the Los Angeles outfall at Hyperion. The remaining money is this city's share of the quota for the turbines of the Woodwind and the University of California, Southern Branch. Committees under the leadership of Ed Gensler have been instructing voters of the importance of the issue submitted.

PASADENA NAMES NEW CITY MANAGER

R. V. Orbison
Elected to direct civic affairs of Crown City.

Inglewood May Enter Candidate in Queen Voting

LOCAL COMMUNICATOR

INGLEWOOD, Aug. 12.—Ruth Hadley, 18 years of age, a Lennox beauty, is one of the favorites in the queen contest being conducted by the Lennox Industrial exposition. Ruth is the second runner up, the other contestants are Vera Campbell and Jessie Galbraith, also of Lennox and Marie Heckner of Hawthorne. Last night was the first night of the exposition, resulting in a movement for entering an Inglewood girl in the queen contest, one of those mentioned being Miss Marcia, a popular beauty who won with a large majority the title of queen of the Inglewood industrial exposition some months ago.

Led by the action of members of the Industrial Exposition, W. G. Brown and Past-President George M. Sutton, directors of the Inglewood chamber, made a motor caravan to Lennox. In Hawthorne, they were received with a large number of chamber members and other Inglewood residents in line. They were given a hearty welcome by Mrs. L. G. Vaughn, president of the Lennox Chamber of Commerce, under whose auspices the exposition is held.

The show will last throughout the week, with elaborate programs every evening. The exhibits include industrial and commercial exhibits, an automobile show and other features, the emphasis to be given to the importance of the growth of the Lennox section.

Ford City Man Dies as Result of Road Crash

LOCAL COMMUNICATOR

INGLEWOOD, Aug. 12.—Succumbing to stomach trouble, S. L. Wheeler, ex-Mayor and veteran Councilman of this city, died at noon today at his ranch home on South Santa Anita avenue. He underwent an operation on Tuesday of last week at the Pasadena Hospital, but surgical aid was declared hopeless, and he was returned to his home here on Wednesday. He had been a member of the City Board of Trustees, four of which he had served as chairman. He had the unique distinction of being a member of the same board during the seven years and had been a tireless worker for all kinds of civic improvement. He is survived by his wife, Mrs. William C. Wheeler, and two sons.

The young victim of Cari Johnson of 84 West Colorado street. He was fined \$500 for possession of liquor this morning and was given the alternative of working \$600 days in the city's rock pile in the Arroyo Seco.

HELD FOR BURGLARY, LADS TO STAND TRIAL

LOCAL COMMUNICATOR

YORBA LINDA TO VOTE ON BONDS FOR SCHOOL

LOCAL COMMUNICATOR

SANTA ANA, Aug. 12.—A \$50,000 bond election will be held at Yorba Linda September 5, in connection with the proposal for a new school building. The election was fought by trustees of the district. Following a meeting of the district, at which one of five sites for the proposed building was chosen, the trustees voted to stand trial and a resolution calling the bond election. Dep. Dist-Atty. D. G. Wettin was in attendance at the meeting to advise the board regarding bond proceedings.

TAKE WOMAN IN GIRL POISONING

Housekeeper Held Following Child's Liquor Death

Charged With Contributing to Delinquency

Miss of Thirteen Attended Drink Parties, Said

EXCERPTS DISPATCH

BAKERSFIELD, Aug. 12.—Promising startling developments, county officials who have investigated the death from liquor poisoning of 12-year-old Ruby Holmes at Taft, have placed Mrs. Lucy Platé, housekeeper for the Holmes family, in the county jail on a contributing charge. It is believed that Mrs. Platé had knowledge of the liquor parties participated in by the Holmes girl.

COUNTY PROBATION OFFICER C. P. Hunt, who was in charge of the investigation, said that he had been unable to determine the cause of death of Ruby Holmes, but he had been able to determine that she had been a regular participant in the liquor parties.

According to the officers, Mrs. Platé was in sole charge of the house when the girl was given to the officers and boys. It is alleged that she accompanied Ruby Holmes and her older sister on a number of outings at which liquor was served.

Local officials, which investigated the mysterious death of Ruby Holmes, returned a verdict of death from alcohol poisoning at Taft last week.

Ruby Holmes, who was born at Taft last week, was a slender, dark-haired girl, 5 feet 3 inches tall, weighing 110 pounds.

The girl was found dead in her room at the home of her mother, Mrs. Lucy Platé, housekeeper for the Holmes family.

It is believed that Mrs. Platé, who has been a regular participant in the liquor parties, was responsible for the death of the girl.

It is believed that Mrs. Platé, who has been a regular participant in the liquor parties, was responsible for the death of the girl.
